FULL-STACK WEB DEVELOPER

I am a dedicated and results-oriented Full-Stack Web Developer with strong experience designing and developing modern, high-performance websites, e-commerce stores, and custom web applications that help businesses establish a powerful online presence and generate real growth. I specialize in building fast, responsive, secure, and conversion-focused solutions using WordPress, WooCommerce, PHP, Laravel, JavaScript, MySQL, and modern frontend frameworks.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Web Developer
Self Employed - Remote   **August 2024 - Present**

Navni Organics : I designed and developed a fully functional e-commerce website for them , a brand specializing in organic products. The goal was to create a modern, user-friendly online store that reflects the brand's identity while ensuring smooth functionality across devices.

Ta Labels: I developed a responsive website for TA Labels, a textile industry , to showcase their profile and services online. The main objective was to design a professional, user-friendly frontend that highlights the brand's identity while being simple to navigate.
